Paperback. Book Condition: New. Not Signed; From the ground-breaking offices of Google, 'Search Inside Yourself' is a personal growth program that focuses on developing emotional intelligence through mindfulness, making its participants more productive at work and better leaders, while becoming more peaceful, happy and compassionate individuals. Famed for its innovative and unusual, yet highly successful working culture, Google is more than just a search engine. One such innovation is the' Search Inside Yourself' program, created for Google by a diverse group of individuals including a Zen Master, a CEO, a Stanford University scientist, and author Daniel Goleman, it's been a life changing program for many participants, contributing to great improvements in both their personal and professional lives. Not surprisingly, many people found 'Search Inside Yourself' to be beneficial in their personal lives as well.
