Brill, Netherlands, 2002. Hardback. Book Condition: New. Bilingual. 246 x 163 mm. Language: French,English . Brand New Book. The year 2000 s most significant international event was, almost certainly, neither political nor military, but scientific - the announcement, in June, that the human genome had been almost totally decoded. Future generations may well see this as a major turning point, opening the way to radical changes in diagnosis, prognosis, and medical treatment. Often compared with the space programme, this vast enterprise still generates misgivings: this new power, which human beings now have, to modify the genetic heritage of living creatures raises fundamentally new ethical questions - and society as a whole will have to find the answers. In fact, the accelerating pace of scientific and technical progress seems to be reviving atavistic anxieties, some rational, others less so. Recent public-health crises, including the mad cow disease scare, which lasted into 2000, have fuelled these fears. The public s rejection of GMOs (Genetically Modified Organisms) - verging on a crusade in some countries - tells its own story. As regards conflict, 2000 saw the Middle East peace process grind to a halt, and the Intifada resume. In Europe, the situation in...
