Neuware - Master's Thesis from the year 2011 in the subject Politics - Methods, Research, grade: A+, , course: International Cooperation Policy, language: English, abstract: Undoubtedly, the mangroves and associated wildlife show signs of degradation in every region of the world. The historical data proves that in 10 regions there is a continuous mangrove lost since 1980 to 2005. The research destination, the Philippines has lost its mangrove cover severely. The government involvements, necessary law enforcement, political will proper leadership, community involvement, alternative livelihoods, education campaign, and involvement of all local and national organization and willingness of local communities are needed to change this trend of degradation of mangroves around the world. There is an example in the City of Puerto Princesa in Palawan, Philippines that combined all the ingredients to a continuously performing sustainable environmental development project. This mangrove plantation project is known as 'Love Affair with Nature'. This project is being held annually since 2003 and 58.5 hectares has been rehabilitated in Puerto Princesa. This project is very attractive with its mass wedding ceremony and celebrations. Averagely, about 150 couples get marry with the support of the...
